**User Access and Confidentiality Agreement**  
**-PLEASE READ CAREFULLY -**

Radiology Partners, Inc. (RP) is dedicated to upholding the privacy and security of each individual patient and record entrusted to it by the supplying health care organization. Information viewed and obtained from the use of RP systems will be for the exclusive benefit of patient care, physician support and organizational quality. All identifiable health care information, organizational information or physician information will remain confidential in nature except to those in the direct care of the patient. As a Basic User, Super User or Administrator you hold a position of trust and an appropriate amount of responsibility for the safe and effective use of the system will be given. Any information pertaining to patients, whether it seems trivial or monumental, must remain confidential and be treated as sensitive information and must be held in strictest of confidence.

1. I understand that my user name is my own individual access code for gaining entry into the RP Information systems (Example: Intelrad, zVision, Fluency, etc.) and I agree that I will not share my User Name or password with staff or physicians.
2. My application User Name allows me to access information which I have been authorized to use to perform my job responsibilities and I agree that I will only use my access as appropriate in order to carry out my assigned duties.
3. I understand that my User Name is my electronic signature and may be recorded via standard system logging when performing activities on RP applications. I will be responsible for the activities logged even in the cases when I have stepped away from a station that has not been logged out. (Logging out of applications is highly recommended to protect HIPAA data and prevent others with authority to access patient data from doing so in your name)
4. I understand that the data that I access through RP systems is privileged, and confidential, and is to be used only in the performance of job-related or patient-related activities. I agree that I will not divulge confidential information unless requested to do so by my supervisor or other authorized personnel in the performance of my job duties or as required by law.
5. I am completely aware that printing of patient information should not be performed in an area without proper HIPAA disposal capabilities. I also agree not to print confidential information remotely or remove it through manual means from authorized areas.
6. If a user has reason to believe that their information has been compromised an immediate notification of the issue is required to allow for security checks and proper system resets to occur.
7. If any functional system issues are noted notification of those issues are requested in a timely manner appropriate with the level of criticality to patient care. (Examples)
  - a. Critical/Immediate: Patient Health, HIPAA compliance or significant liability at stake
  - b. Moderate/Same Business Day: Password Resets, Report Correction or Transfer Issues
  - c. Minor/As Soon As Possible: New User Access, Software Bug or Future Upgrades
8. All data involved in patient care should be accurate and reflective of the parent information system (Example: PACS, EMR, HIS, RIS) If the user should find this to be inaccurate at any time notification must be made to the appropriate individuals immediately to promote the best possible care for patients and prevent unnecessary liability.
